EXPLORERS
ALUMNI TRAVEL PROGRAM

Dear EXPLORERS and Friends,

We invite you to join us as we cruise from the Atlantic to the Pacific through one of the greatest man-made wonders of the world, the ingenious Panamá Canal, an experience nearly unmatched in its drama and engineering prowess. A recently completed, monumental expansion in 2016 doubled its capacity; this 50-mile passage through the narrow isthmus of Panamá continues to astonish even today's most veteran traveler. During a specially arranged and narrated daylight transit, experience firsthand the mighty locks that raise and lower oceangoing vessels 85 feet, employing the force of gravity to accomplish in mere hours what would have previously taken a three-week circumnavigation of South America.

Our journey of a lifetime also features the Earth's most pristine ecosystems in the rainforests, islands and archipelagos of Panamá and Costa Rica during the best time of year. On our comprehensive itinerary, explore the heart of Panamá City's UNESCO World Heritage-designated Casco Antiguo—the city's old town—and tour acclaimed architect Frank Gehry's only design in Latin America, Panamá City's Biodiversity Museum. Visit the stunning and biodiverse Manuel Antonio National Park, where expert naturalists will lead us on a trail walk through an ecosystem of rare species, including the scarlet macaw and fiery-billed aracari.

Cruise aboard the exclusively chartered, Five-Star LE DUMONT-D'URVILLE, launching in 2019 and featuring the extraordinary *Blue Eye*, the world's first multisensory Observation Lounge. This sophisticated small ship offers only 92 Suites and Staterooms, each with a private balcony. Dock in small ports of call inaccessible to larger vessels, enjoy enriching excursions led by experienced onboard naturalists and receive personal, attentive service.

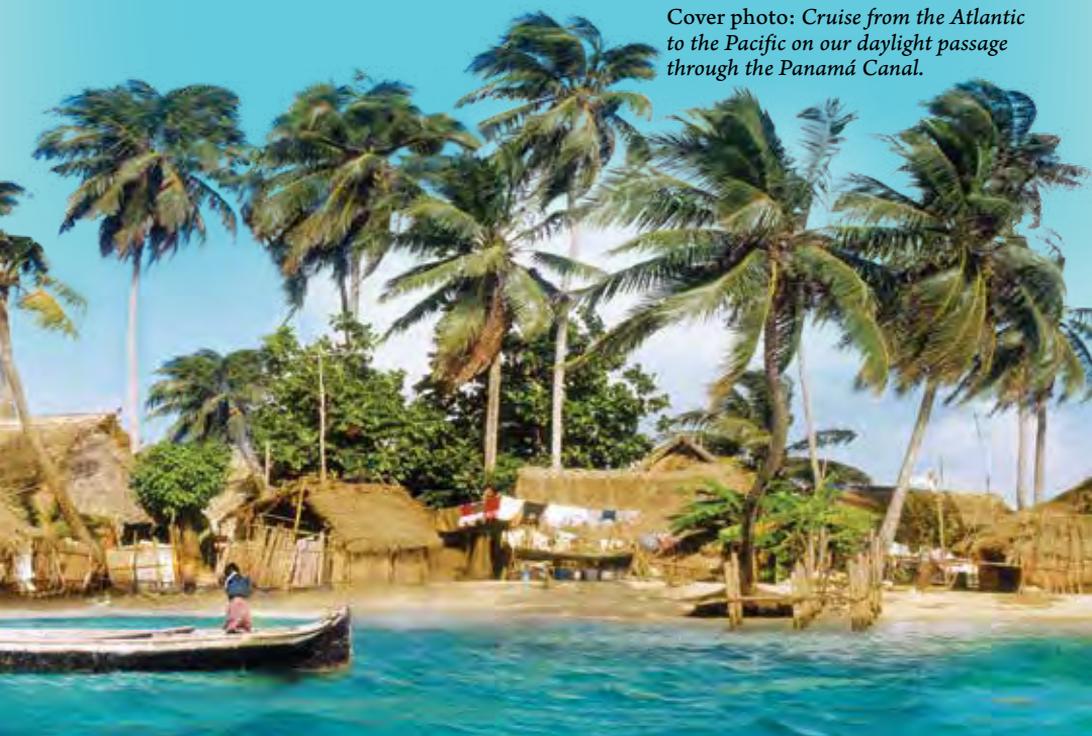

Space is limited for this extraordinary travel opportunity and excellent value, so book now while Early Booking Savings are still available!

Sincerely,

A handwritten signature in cursive script that reads "Jennifer Dillavou".

NATURE'S WONDERS

in the Heart of the Rainforest

Called the "rich coast" by the Spanish conquistadors who sought to colonize it following Columbus's arrival in 1502, Costa Rica offers diverse and fascinating richness, seen in its fertile landscapes and the perseverant culture of its indigenous people. More than 25 percent of this captivating country is a national park, wildlife refuge or protected rainforest, earning Costa Rica the distinction of one of the greenest countries in the world and a leading destination for eco-tourism. Explore lush rainforests, stroll the white sands of coral-fringed beaches and encounter a vivid array of wildlife, including howler monkeys and 600 species of non-migratory birds. The national motto of Costa Rica is "¡Pura Vida!" translating to "pure life," and is expressed in the proud and welcoming faces of the Ticos (Costa Ricans), the passionate biologists captivated by the flourishing rare and endemic species and the spectacularly vivacious landscape itself.

San Blas Islands

Located on the Caribbean side of Panamá, the sun-drenched San Blas Islands are a living testament to Panamá's indigenous Guna people, also known as the Kuna, and their centuries-old language, customs and culture. The Guna live in thatched-roof huts, barter or trade in fish and agricultural products and travel in dugout canoes. Guna women hand embroider traditional colorful *molas* (reverse appliqué panels) and wear *winis*, long strings of tiny beads wrapped around their forearms and legs in striking geometric patterns.

The turquoise waters of Golfo de San Blas, populated with untouched coral reefs and vibrant marine life, offer a paradisaal setting for swimming and snorkeling.

Panamá City

In Central America's most attractive capital city, learn more about the operation of the Panama Canal's locks in the adjacent Miraflores Locks Visitor Center. Nearby, the spectacularly colorful Biodiversity Museum, designed by architect Frank Gehry of Guggenheim fame, showcases the ecological significance of Panamá's exotic flora and fauna. Visit the UNESCO World Heritage-designated

THE PANAMÁ CANAL

Marvel of Human Engineering More than a Century of Passages

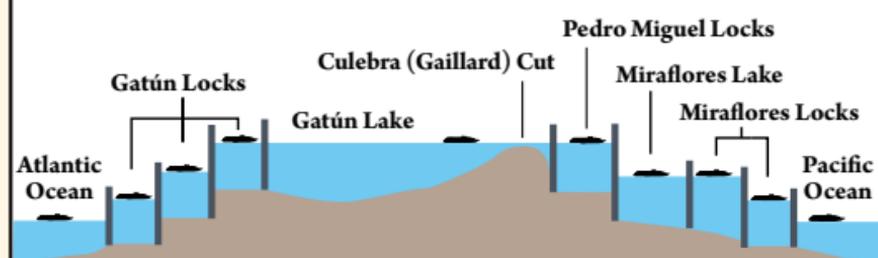

The 580-foot-long SS Kroonland was the largest passenger ship of its time to transit the Panamá Canal in 1915.

After France's failed attempt to build a sea-level canal in the 19th century, and following the U.S. involvement in Panamá's independence, the canal project resumed under the watchful eye of President Theodore Roosevelt. Completed in 1914, the Panamá Canal is considered one of the Seven Wonders of the Modern World by the American Society of Civil Engineers.

During a daylight passage, experience firsthand the "greatest liberty man has ever taken with nature," which cuts through the Great Continental Divide, spans almost 50 miles and took 33 years and 100,000 laborers to complete, costing \$400 million.

CROSS SECTION OF THE PANAMÁ CANAL

This historic engineering feat changed the world, opening new channels of international trade and allowing ships to travel between the Atlantic and Pacific Oceans in a fraction of the time it took to circumnavigate South America. Now, more than a century later, the canal has undergone a \$5.25 billion expansion to accommodate more than twice the cargo, maintaining its status as the "gateway to the world."

Marvel at the grand construction of the Panamá Canal, a monumental project that spanned more than 30 years.

Listen for the distinct call of the howler monkey, which has been known to be heard up to 10 miles away.
